

SeatDash Runner & Filler Training

Fans order food to their seat. Here’s your part.

The fan orders
from their seat

The filler packs it
at the stand

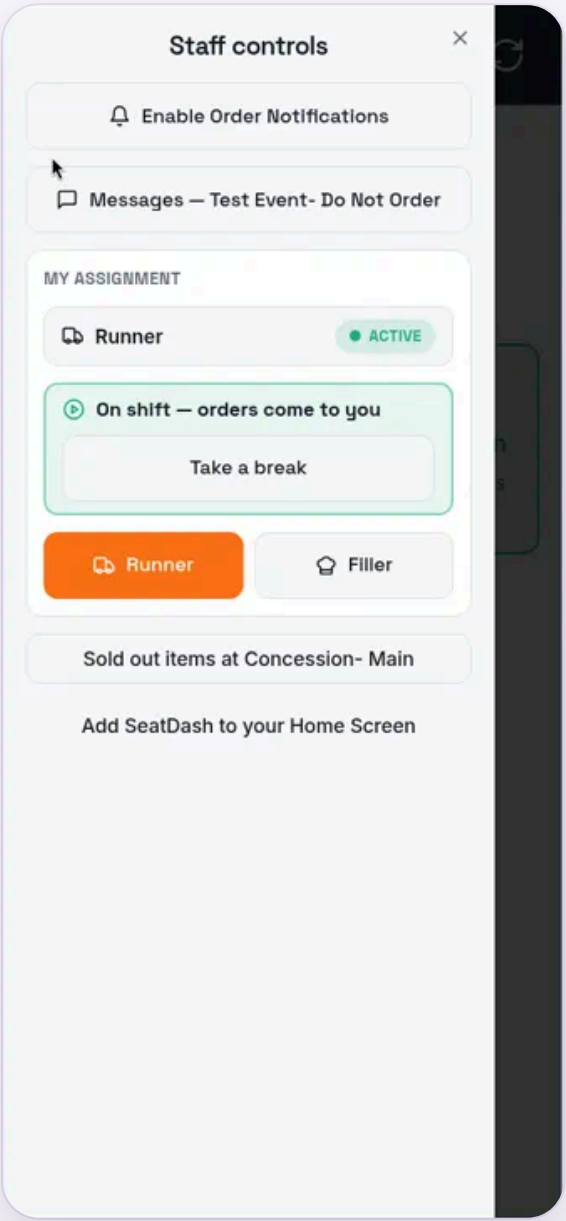

The runner delivers
to the seat

Swipe or tap → to start

EVERYONE

Staff controls

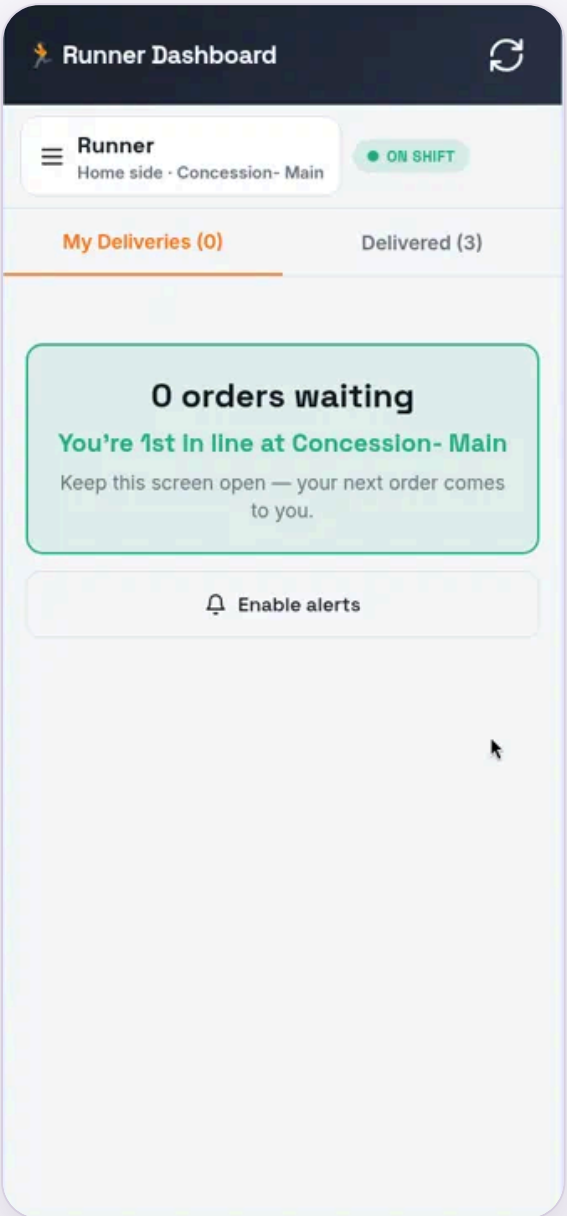

Tap the ☰ **menu** on your Runner/Filler card to open this. Turn on **Order Notifications**, read **Messages**, **Take a break**, and switch between **Runner** and **Filler**.

RUNNER

Waiting at the stand

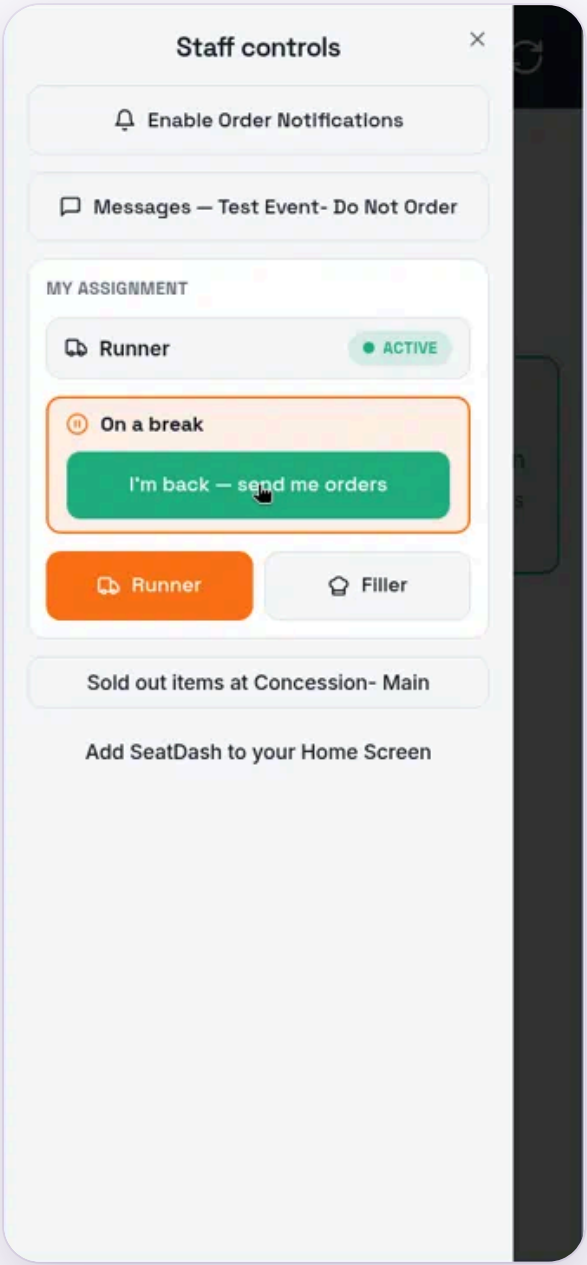

Keep this screen open. It shows how many orders are waiting and your place in line. Your next order comes to you, so there’s nothing to grab.

EVERYONE

Taking a break

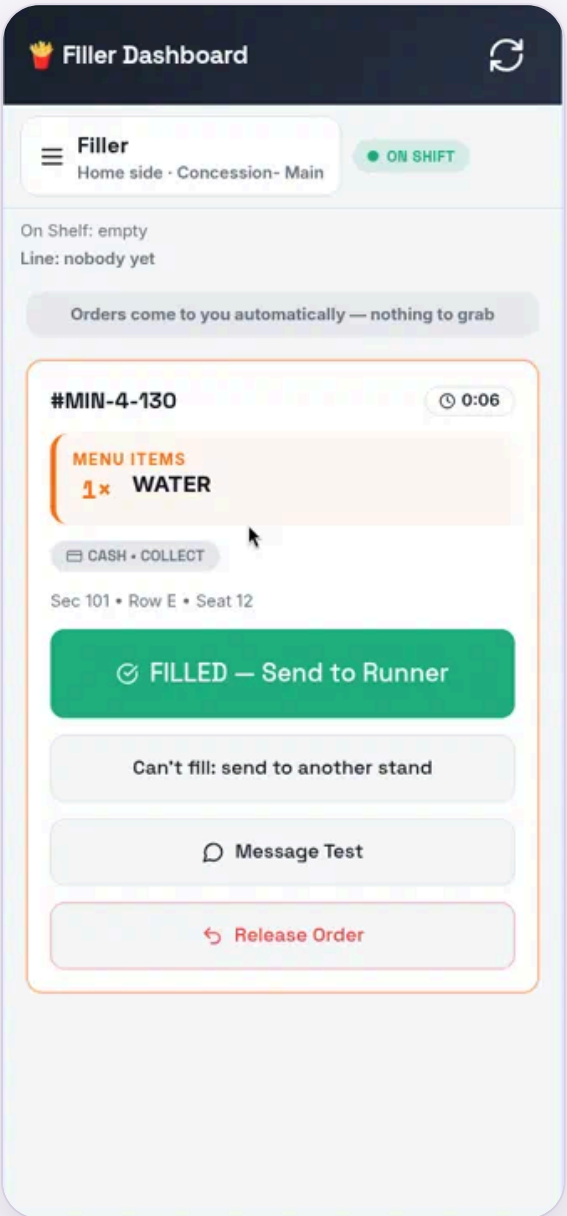

Open the menu and tap **Take a break** so no orders come to you. When you return, tap **I'm back — send me orders**.

FILLER

A new order arrives

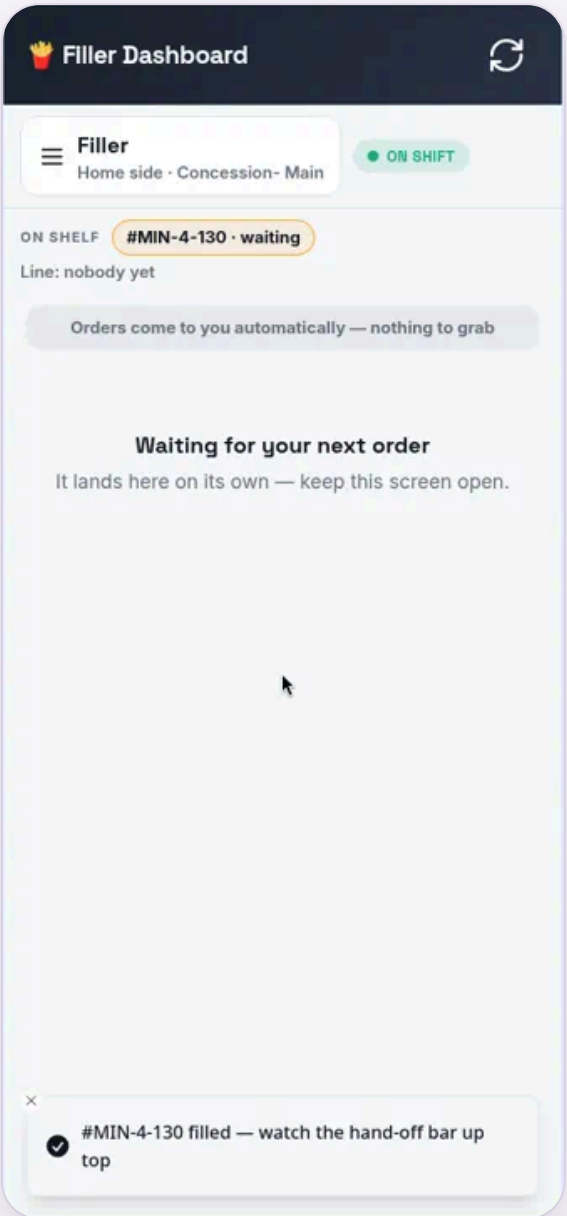

New orders show up on their own. Pack exactly what's listed, then tap **FILLED — Send to Runner**. If your stand can't make it, tap **Can't fill: send to another stand**.

FILLER

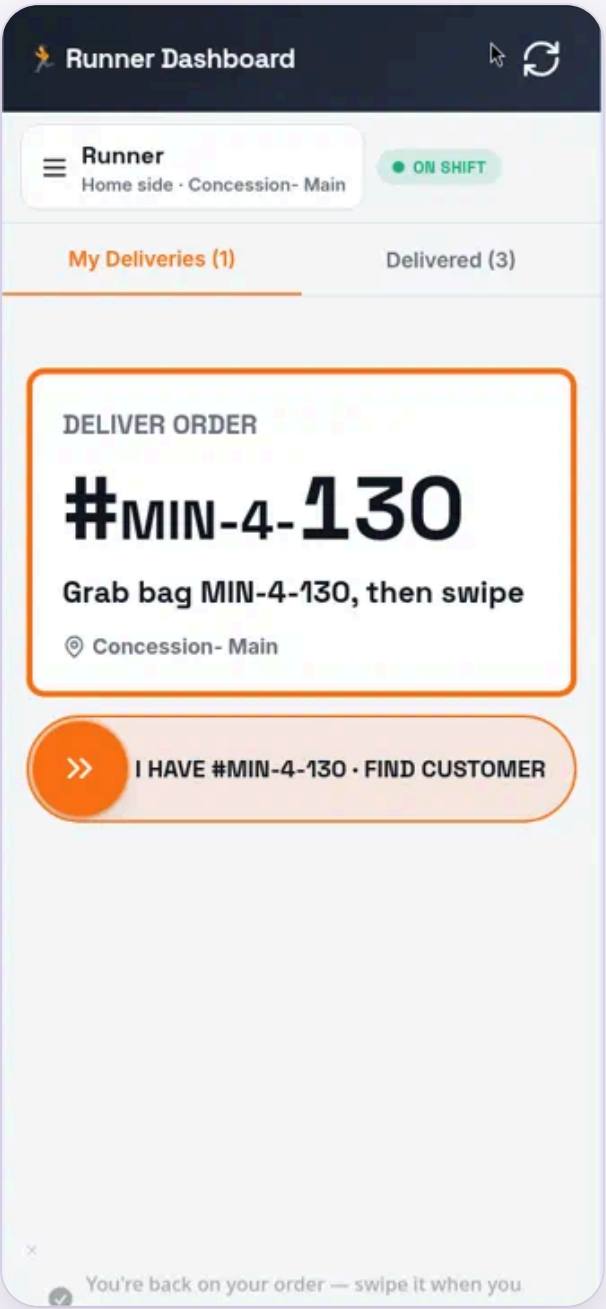

On the shelf

Put the bag on the shelf. The **On Shelf** bar at the top shows the order waiting for a runner, and your screen goes back to waiting for the next one.

A delivery is yours

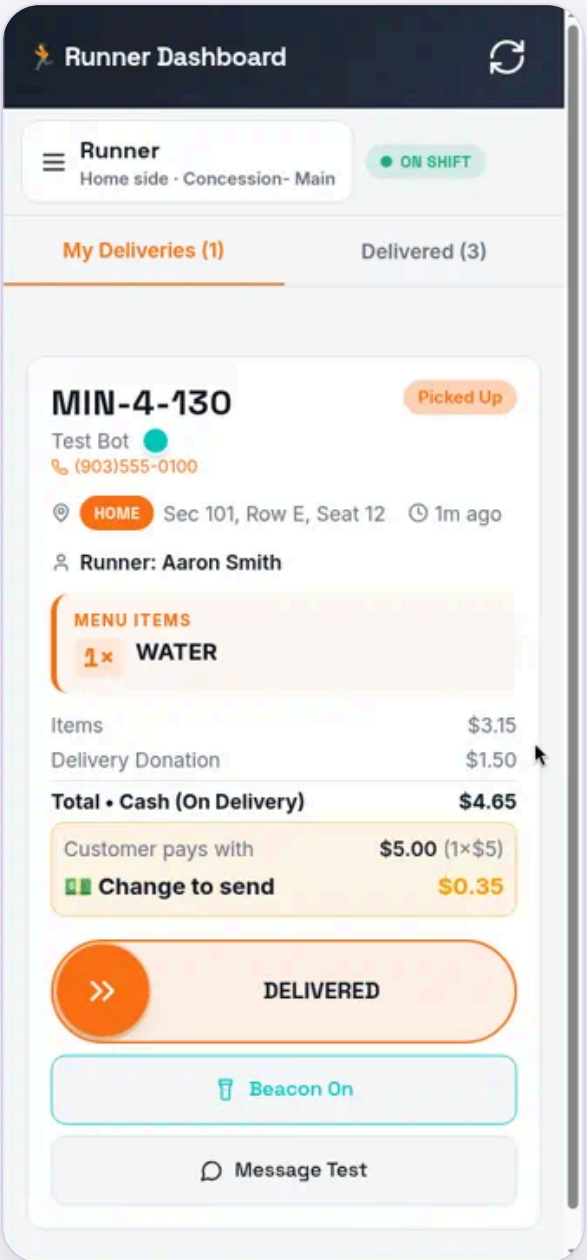

Grab the bag with the number shown, then swipe **I have #...** to head out.

RUNNER

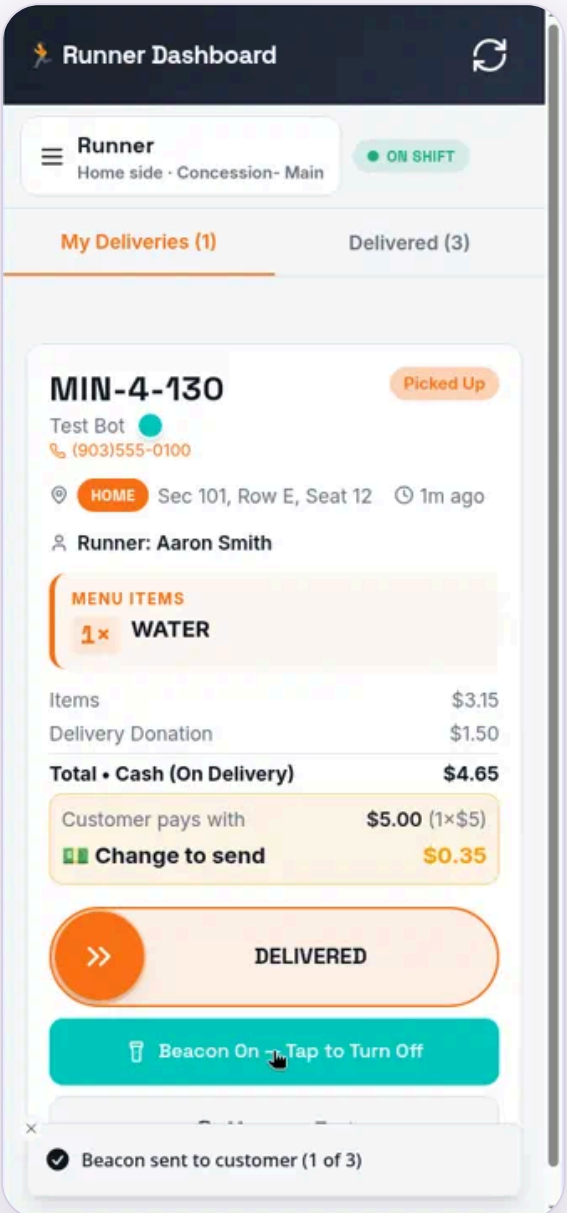

On the way

Go to the side, section, row and seat shown. On cash orders, the yellow box shows what the fan is paying with and the change to hand back.

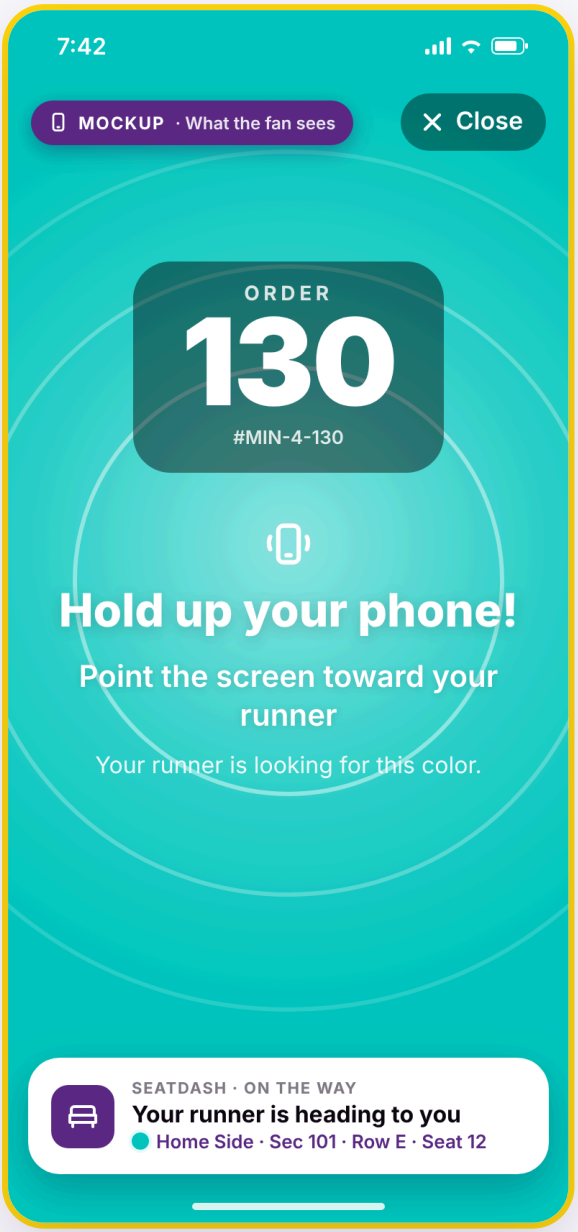

The Beacon button

Can’t spot the fan? Tap **Beacon On**. Their phone lights up in the same color as your button, so look for it in the stands. You can send it up to 3 times.

What the fan sees

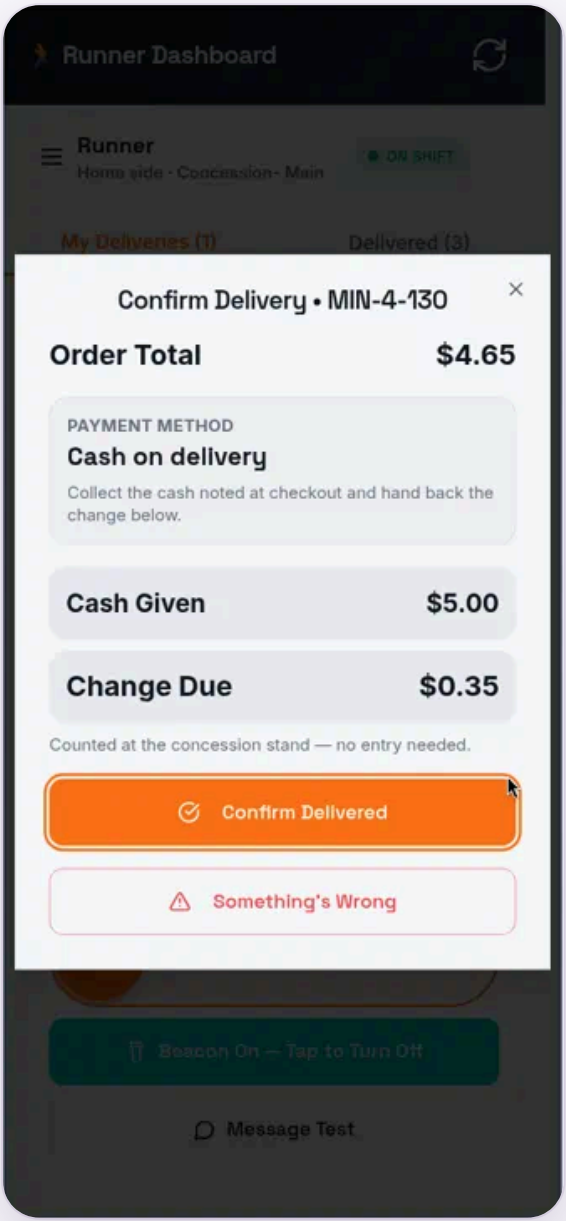

If the fan has their order page open, it fills with the beacon color and flashes, showing the last 3 digits of the order number. Look for a phone glowing your button's color.

RUNNER

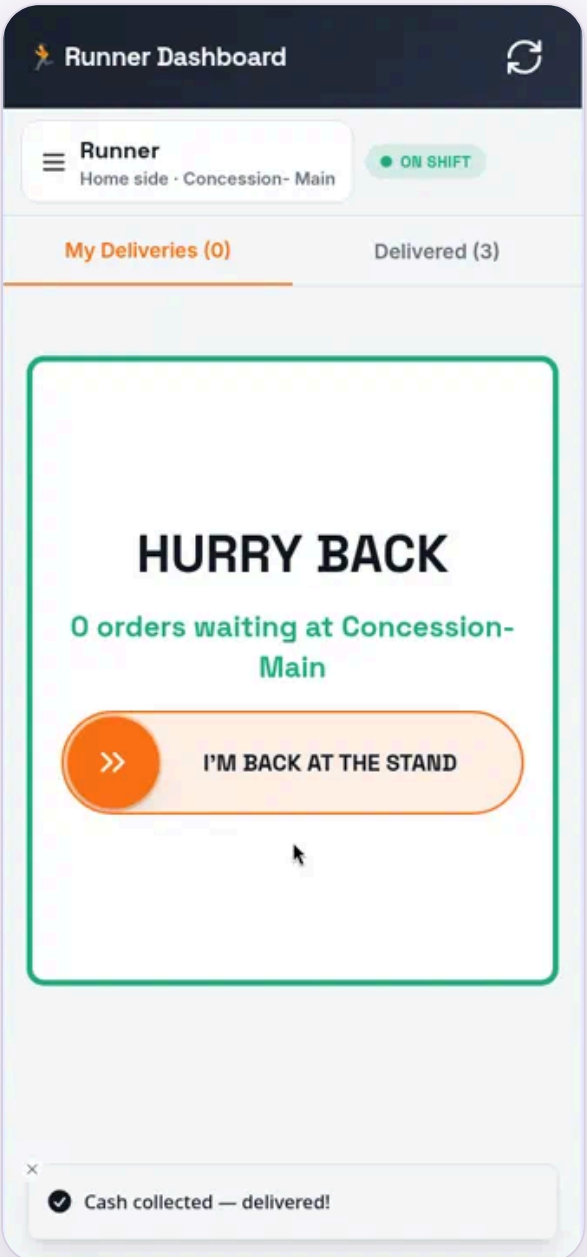

Delivered

Hand over the order and swipe **DELIVERED**. On cash orders, check the cash given and change due, then tap **Confirm Delivered**. Problem? Tap **Something's Wrong**.

Hurry back

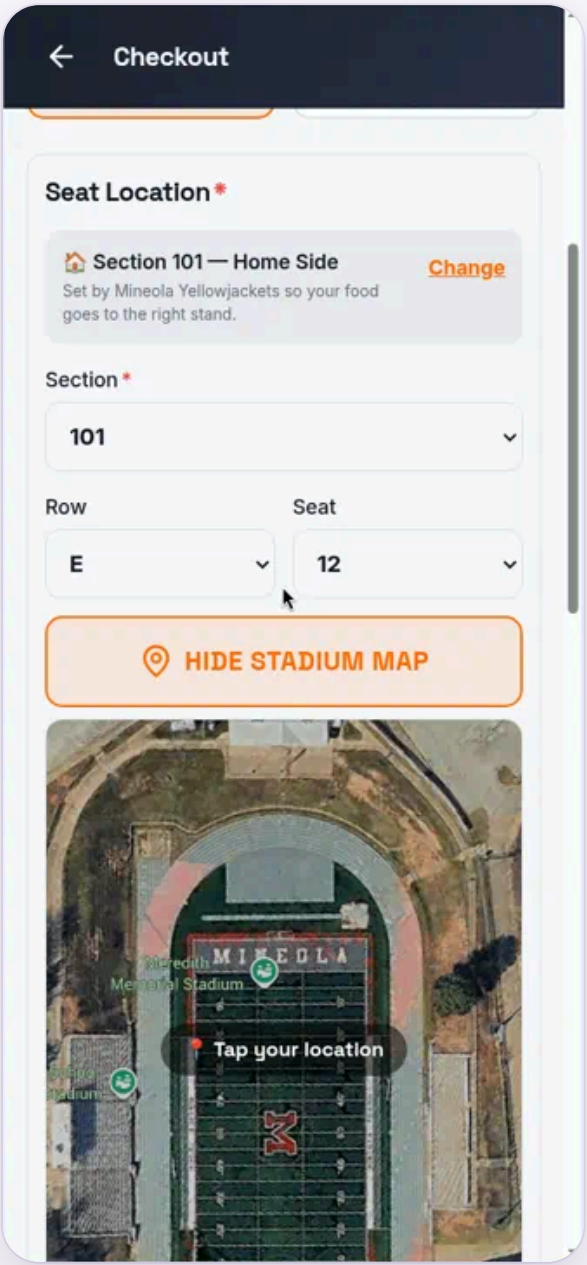

Walk back to the stand, then swipe **I'm back at the stand**. That puts you back in line for the next order.

FAN VIEW

Where the seat comes from

At checkout, fans pick their section, row and seat and can tap their spot on the stadium map. That's the seat info you see on your screen.

EVERYONE

Before you go

☀️ **Keep the screen on.** Leave SeatDash open on your phone the whole game. That’s how orders reach you.

🔔 **Keep notifications on.** Tap *Enable alerts* or *Enable Order Notifications* so you hear new orders.

💬 **Something odd?** Use *Message* on the order, or check *Messages* in the menu, instead of guessing.

You’re ready. Thanks for helping out!
